KENNETH AUDREY S. ARCENIO

Full-Stack Software Engineer | Remote Freelance Developer
Quezon City, Philippines (UTC+8) +63 995 353 4351 arceniokas@gmail.com

PROFESSIONAL SUMMARY

Innovative Senior Software Engineer with over 12 years of experience in full-stack development. Expert in building scalable microservices and high-performance web applications using **Angular v21** and **.NET Core 6**. Specialized in **AI-augmented engineering**, leveraging LLMs and automation tools to significantly increase development velocity and code quality.

CORE SKILLS

AI & Automation: Claude Code, Claude Team, Sub-Agent Orchestration, Gemini Pro, GitHub Copilot, Prompt Engineering, n8n Workflow Automation.
Frontend: Angular (v2–v21), ReactJS, NodeJS, TypeScript, Require.js, HTML5/CSS3
Backend: .NET Core 6+, ASP.NET MVC, C#, REST APIs, NServiceBus, RabbitMQ
Architecture: Microservices, MVC, Desktop-to-Web Migration
Cloud & DevOps: Microsoft Azure, AWS, CI/CD Pipelines
Methodology: Agile, Scrum, Code Reviews, Client Presentations
Tools: Git, Active Reports, Social Media API Integrations

PROFESSIONAL EXPERIENCE

.NET Developer June 2023 – Present
Booth & Partners Philippines **REMOTE**
Outsourced to US-based client

- Maintain and enhance production MVC web applications serving customer-facing data dashboards for a US client
- Integrated AI-assisted engineering using Claude Code and Gemini Pro to accelerate legacy code refactoring and boilerplate generation.
- Leveraged AI-driven analysis to identify and resolve performance bottlenecks in C# backend services.
- Architected automated data processing workflows to enhance the efficiency of web-mined data integration.
- Collaborate asynchronously with the US-based team across time zones

Senior Software Engineer February 2019 – February 2023
Ascenda Loyalty PTE LTD (Singapore) **REMOTE**

- Built and maintained loyalty-points booking platforms (hotels, flights, cars) for multiple international clients using a microservices architecture
- Led frontend development, translating designer specs into production-ready interfaces
- Conducted code reviews across multiple teams, maintaining code quality and consistency
- Worked fully remotely for 4 years with a distributed, cross-timezone team

Senior Developer October 2017 – February 2019
Petsure Service Inc

- Led frontend development using Angular 2, integrating with multiple REST API microservices
- Contributed to backend API development within a microservice architecture

Developer April 2016 – September 2017
Tribal Group Plc (UK)

- Migrated legacy desktop application to a modern web application with reporting features using Active Reports

Software Developer February 2014 – April 2016
Cybersoft Content Service, Inc.

- Designed system architecture and built proof-of-concept solutions for new projects
- Led client presentations and sprint demos as part of an Agile/Scrum team
- Identified and automated business processes to improve operational efficiency

Software Developer (Contract) February 2013 – December 2013
Software Laboratory Inc. — Client: Smart Communications

- Developed web applications integrating Facebook and Twitter APIs for a major telecom client

EDUCATION

AMA University — Bachelor of Science in Computer Science 2009 – 2013

ACHIEVEMENTS

- Best in Thesis — AMA University
- Consistent Political Scholar (1st Year – 4th Year College)
